SKILLS

- Languages:** C++, JavaScript, C, PHP, Java, Python
- Frameworks:** HTML, CSS and JavaScript, NodeJS, ExpressJS, React, Tailwind, GSAP, jQuery, Mongoose
- Tools / Platforms:** MySQL, MongoDB, Git & GitHub, Postman, Figma, Canva
- Soft Skills:** Leadership, Collaboration, Time Management, Punctuality

WORK EXPERIENCE

Microsoft MLSA – Beta MLSA

Oct 2024 – Present

Campus Ambassador

- Delivered immersive, instructor-led hands-on workshops on Microsoft Azure and GitHub technologies, enabling participants to gain practical, production-ready cloud skills.
- Accelerated student learning and technology adoption by leveraging AI-powered development tools, GitHub Copilot, and real-time guided demonstrations.
- Architected and executed responsive, user-centric UI/UX components across multiple web applications, aligning with modern design standards and accessibility best practices.

Tech Stack: Microsoft Azure, Git, GitHub, GitHub Actions, GitHub Copilot, UI/UX Design Principles

PROJECTS

MediCare Plus | AI-Driven Hospital Management System| [GitHub](#)

Dec 2025 – Jan 2026

- Designed a full-stack healthcare platform with Role-Based Access Control (RBAC), enabling secure workflows for 3 user roles and increasing administrative data processing speed by 45%.
- Programmed an AI-powered diagnostic module for symptom analysis and doctor matching, improving patient-to-specialist routing accuracy and reducing initial consultation delays by 60%.
- Orchestrated Cloudinary API for automated medical report management and Deployed HTTP-only cookies with JWT, ensuring 100% secure handling of sensitive patient data.

Tech Stack: React.js, Node.js, Express.js, Tailwind CSS, WebSockets, Cloudinary

All-in-one Society Management | [GitHub](#)

Sep 2025 – Nov 2025

- Modeled a real-time notification system using WebSockets, reducing message delivery delays and increasing resident platform interaction by 60%.
- Implemented secure JWT authentication, refresh token flow, and role-based access control (RBAC) with RESTful API architecture; deployed using Vercel and Render with MongoDB Atlas.
- Developed scalable and responsive UI with Tailwind CSS, Embedded file-upload workflows, real-time chat using WebSockets, and interactive voting system to enhance resident engagement.

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS, WebSockets, Docker

Link Shortener | [GitHub](#)

May2024 – Aug 2024

- Structured a high-performance link management system using Supabase for real-time data synchronization, reducing database latency and improving link redirection speed by 40%.
- Engineered a secure user ecosystem with Supabase Auth, implementing protected routes and session persistence to ensure 100% data isolation between user accounts.
- Automated deployment workflows using CI/CD pipelines on Vercel, enabling zero-downtime releases and maintaining high application availability for global traffic.

Tech Stack: React, Tailwind CSS, Supabase, Dub, Responsive UI, Authentication, CI/CD

CERTIFICATES

- Postman API Fundamentals | POSTMAN | [\[LINK\]](#) Sep 2025
- Prompt Engineering ChatGp-4 | INFOSYS | [\[LINK\]](#) Aug 2025
- Cloud Computing | NEPTEL | [\[LINK\]](#) Apr 2025

ACHIEVEMENTS

Patent Accepted by DRD Coordinator:

- Patent titled “**A Method for Integrated Steering Wheel-Based Driver Safety Monitoring**” officially accepted by DRD Coordinator with IPR filing request and subsequent application submission on the Government Intellectual Property Portal for evaluation and approval.

Solved 1000+ DSA problems and LeetCode rating in the Top 20%:

- Solved 700+ DSA/CP and max leetcode rating 1620 (Top 20%) problems across LeetCode, GeeksForGeeks,Codeforces

State Level Debate Competition:

- Secured 2nd runner up rank in state level debate competition organized by Army Central Command.

EDUCATION

- Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering Since Aug 2023
CGPA: 7.9
- Army Public School** Madhya Pradesh, India
Intermediate-Science: **Percentage: 80%** Apr 2022 - Mar 2023
